Overview of the VidyoRoom Remote Control

The VidyoRoom comes with a remote control allowing quick key shortcuts to frequent VidyoRoom activities. It also provides the input mode/keyboard for typing information.

Not In Conference

CONNECT — Start meeting from the homepage.

ARROWS / OK
Use the arrow keys to navigate on-screen.
The option you navigate to will be highlighted in green when activated. Press the OK key on the remote to select the option on-screen.

VOLUME / MUTE / SELFVIEW / ZOOM
Volume — Not applicable
Mute — Not applicable
Single Screen Mode — Shows preview
Dual Screen Mode — Shows help screen on the first monitor and turns control to the camera while preview is shown on the second monitor
Zoom — Acts as a page up/page down for scrolling through search results on-screen
Selfview — Cycles through Selfview modes

ALPHA-NUMERIC KEYPAD
Use these keys in conjunction with the input modes on-screen to key in user names, passwords, speed dials, and search terms.

CONTROL KEYPAD
Back —Takes you to the previous screen in the VidyoRoom interface
Manage — Brings up the remote control Help screen
Home — Takes users to the home screen in the VidyoRoom interface
Delete — Acts as a backspace when typing in a form field
Settings — Brings up the Settings screen
Toggle — There is no functionality for this key
A — Multifunction key
B — Multifunction key
C — Multifunction key
D — Multifunction key

In Conference

✓ Save   ✗ Cancel

Using the Onscreen Keyboard

Done

- In a field, click **OK** to view the keyboard.
- Use the up, down, left, and right arrow keys to navigate.
- Click **OK** to enter a character.
- Click **Done** to close the onscreen keyboard.

- Enter Portal – Arrow right, click **OK** and use the onscreen keyboard to enter the IP address of the VidyoPortal that the VidyoRoom is connected to.

- Enter User Name — Arrow down to the User Name field, click **OK** and use the onscreen keyboard to enter the name of the VidyoPortal.

- Enter Password — Arrow down to the Password field, click **OK** and use the onscreen keyboard to enter the password of the VidyoPortal.

- Scroll down to the **Save** button and click **OK** to save your settings.

- To change network settings for your VidyoRoom, click Network to access the Network screen. (The default setting on this screen is **Use DHCP**.)

- Click **Use static IP address**, and then specify the network settings using the onscreen keyboard to enter the appropriate information.

- Scroll down to the **Save** button and click **OK** to save your settings.

*See the separate *VidyoRoom Administrator and User Guide* for more details.
