

VidyoVoice™

Local Access Numbers for Voice-Only Conference Participation

For times when it's just not practical to participate on-camera, the VidyoVoice™ service provides local access numbers for voice-only participation from any wired, wireless, or IP telephone. There's no equipment to buy or maintain: your subscription delivers a monthly allocation of voice minutes and a choice of a toll-free US number or a local access number from one of more than 45 countries. With upgrade options to add additional minutes and to provision access numbers from additional countries, VidyoVoice delivers a local, regional, or global voice participation option that's easy to deploy, manage, and scale.

Key Features

VidyoVoice Features

- Standard package supports up to 10 voice-only participants per conference
- Your choice of a toll-free US number or a local number from over 45 countries
- Customizable auto-attendant greeting
- No equipment to purchase or maintain
- Add capacity and additional local access numbers to the standard VidyoVoice package as-needed

VidyoVoice Benefits

- Dial in to any conference from any phone
- Participate from locations without broadband network connections
- Listen and speak from your mobile phone using minutes rather than data
- Extend conference access to participants who can only join by voice
