REACH Statement

Date of Issue: 2.23.2017

The European REACH Regulation 1907/2006 on Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), entered into force in June 2007, and affects all companies producing, importing, using, or placing products on the European market. The aim of the REACH regulation is to ensure a high level of protection of human health and the environment from chemical substances.

Under the definition of the REACH Regulations EC 1907/2006, Vidyo is a producer of "articles". REACH requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight. The European Chemical Agency (ECHA) periodically publishes SVHC candidate list on their web site at URL: http://echa.europa.eu/candidate-list-table

Based on the material content declaration's provided by Vidyo's suppliers, none of these substances are present in the materials we use in our products, including packing and shipping materials. Therefore, Vidyo's products do not contain any of these SVHC in excess of 0.1% by weight.

A public declaration is required if a manufacturer produces products, which may contain more than 0.1% concentration of SVHC weight by weight (w/w), at the article level. The products listed below include articles, which may contain SVHCs above the threshold level of 0.1% weight by weight.

Product	Article containing SVHC*	SVHC information		
		Substance name	CAS number	Declaration (ppm-mg/kg)
Wireless keyboards	Coin cell battery	1, 2-dimethoxyethane, ethylene glycol dimethyl ether (EGDME)	110-71-4	None
Tablets				
Remotes				
Smartphone accessories				
Home switches				
Wireless cameras	Lithium battery	1, 3-propanesultone	112071-4	None
Wireless headsets				
Wireless keyboards				
Wireless mice				
Tablets				
Mobile speakers				
Wireless touchpads				
Wireless gamepads				
Remotes				

** Based on the SVHC list, as of January 2017*

As a supplier of articles we are liable for communication of information towards our customers, we are not liable for registration of substances. Chemical substances contained in our products, which may possibly be subject to registration, have to be registered by our suppliers who in turn must advise us about content.

We maintain contact with our suppliers to avoid SVHC materials being included in our products. They are also required annually to provide a statement against the latest candidate listing. Based on the response statements of our suppliers no materials from the ECHA Candidate List are included in our products or packages. Should it be found that our products or packages contain SVHC materials in the future, we will inform our customers immediately.
