

# Vidyo for Reading & Literacy

## What are Your Needs?

- Do you struggle to provide students with the support they need to develop strong literacy skills?
- Do you offer literacy programs for non-English speaking students?
- Do your educators have access to professional development?
- Do your teachers, instructors, students and families have access to literacy experts?
- Do you provide mentoring programs that encourage reading, writing and computing?

The United States is a highly-literate country, but there's still more to be done to reach underserved communities and immigrants with effective literacy programs. Students of all ages need greater access to proper and consistent instruction so they can become proficient English-language readers, writers and speakers.

### At Issue

### The Vidyo Solution

**The need to provide access to effective reading and literacy programs for all students**

To enhance curriculum and increase access to literacy programs through distance learning, student-created content, class-sharing and collaborative experiences.

**The need for access to reading and literacy programs for children and adults with limited English proficiency**

Use Vidyo to increase access to ESL resources, and support reading and writing education for students and adults with limited English proficiency.

**The need to encourage family literacy activities to increase learning**

To connect families with experts and content via Vidyo for activities that enhance reading, writing and computing skills.

**The need for professional development opportunities supporting literacy programs**

Use Vidyo to increase access to professional development and connect educators with reading and literacy experts.

**The need for mentoring programs that inspire life-long learning**

Use Vidyo to connect learners and experts in a mentoring network that promotes an interest in life-long learning.
