

Vidyo®

VidyoConnect™ Boardroom Experience

Immersive group collaboration technology
for executive meeting spaces

Use Cases

Executive Briefings

Intuitive video and content-enabled space that offers one-touch dial technology for busy leaders

Quarterly Business Reviews

A room with two or more monitors for presenting and comparing results on multiple screens

Training Sessions

A space large enough to host full day trainings

Company All Hands Meetings

A large space that can host employees in the room as well as over video on up to four HD screens

Benefits

Customizable Layouts

Enjoy flexible content and participant layouts, and view up to 16 participants per screen, for up to four screens

Ultra HD experience

Receive stunning quality, up to 4K video and content on up to 3 screens, or 1080p on up to 4 screens

Collaborate with ease

Toggle to switch between shares from multiple participants

Large meeting moderation

Leverage simplified conference moderation controls for a seamless meeting experience for all participants

Business Challenge

Executive boardrooms are being re-imagined to easily connect to participants across the world while providing a world-class, immersive experience that enables business leaders to conduct productive, cost-efficient meetings.

As more teams are geographically dispersed, high quality video solutions play a critical role in your organization's overall success. Until now, affordable room collaboration was limited to single or dual screens with limited resolution and real estate. To keep a competitive edge, your company requires advanced applications and tools that enable natural collaboration, regardless of your teams' locations.

Vidyo Solution

The VidyoConnect Boardroom Experience is for enterprise organizations who need a seamless, fully integrated group collaboration solution ideal for executive meeting spaces and want easy to use technology for busy leaders with top-of-the-line audio, video, and content share.

The VidyoConnect Boardroom Experience offers an immersive, ultra-HD video collaboration environment that is available as a purpose-built turn-key appliance, or as installable software that can run on off-the-shelf hardware. The intuitive user interface offers calendar integrations for click-to-join meetings and customizable layouts to fit every scenario.

Unlike other video conferencing solutions, the VidyoConnect Boardroom Experience offers a 5-star video conferencing setting for all participants without the 5-star price tag.

“Vidyo brought us a new and different way of collaborating. For us it was not just about reducing the time and cost of travel, it was also about speeding up development and production processes across all of our subsidiaries.”

-CEO, Centrotec

Anticipated Results

By implementing the VidyoConnect Boardroom Experience, organizations will have a highly professional, video-enabled meeting space that can be used to host every important customer and partner meeting, saving thousands of dollars annually on travel.

Having a dedicated executive meeting space in the office allows busy leaders to spend less time on the road and more time focused on innovation.
