

VIDYO ENABLE YOUR APP

API Platform to embed multiparty video
into web, mobile, and native apps

```
1 var videoConnector = new VidyoConnector(  
2   {  
3     channelId: "conference123"  
4   }  
5 );  
6 videoConnector.Connect(  
7   token: "AuthenticationToken",  
8   resourceId: "meeting",  
9   onSuccess: function() {  
10    onSuccess(function(connector, reason),
```

Consistent API for every device

Vidyo makes it easy to build video collaboration apps for any device. No matter what platform you're building for, Vidyo provides a consistent, simple API on mobile, desktop, and browsers. So you can focus on building great user experiences, not learning new APIs.

Weak Connection? No Problem.

Error resilient no matter what device you're on

Crystal clear sound and video no matter where you are in the world. We seamlessly adjust video streams and resolutions to make the best of whatever internet connection you have.

SIGN UP FOR VIDYO.IO

<https://vidyo.io>
